

TOP 5 REASONS TO BOOK OUR FAMILY BOAT TRIP

The benefits of taking a family boat trip with Meet the Sea aren't just beautiful views and delicious paella (although that's certainly a bonus)! Here are the top five reasons that booking a trip with Meet the Sea is the right option for you and your family:

1 Build your child's confidence in the water

When transitioning from swimming pool to open sea, it's normal for children to feel overwhelmed - especially in deep water. With the help of our team, we've seen so many children overcome their fears and leave the trip invigorated and excited to explore the sea more.

"Never in a million years did I think my children would swim in the sea [...] This trip has definitely boosted their confidence and opened their eyes to the sea."

Remi, Tripadvisor, 2022

"For our daughter, it was her very first time venturing out to sea, and she was initially nervous [...] before we knew it, she was confidently snorkelling, leaping off the boat, and swimming around without a care in the world."

Christopher, Tripadvisor, 2024

2 Feel safe and supported

Our strict safety measures including a pre-snorkel presentation, individual life vests and the proximity of tour guide/instructor with attached lifesaver are the key to success for children of any age and swimming level. Get your child comfortable at sea, regardless of depth, with the help of our team.

"I am not the best swimmer and very nervous in deep water but they all made me feel so at ease and relaxed! It was also my 4 yr old son's first time in the deep sea and snorkeling and they made him feel so confident by the end."

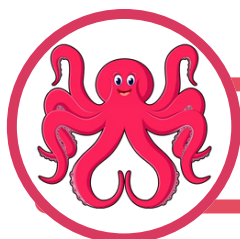

Calli, Tripadvisor, 2024

"The minute someone wanted to come back on the boat there was a member of the team there to help. They have thought of everything"

Katie, Tripadvisor, 2023

"they did a great job at making you feel so at ease and safe that even me, who has not been in the ocean for 20 years and is terrified of it, went in the water and stayed in there for about 30 mins!"

Fiona, Tripadvisor, 2024

TOP 5 REASONS TO BOOK OUR FAMILY BOAT TRIP

3 Entertainment meets education

Don't worry about choosing between learning and having fun - a Meet the Sea boat trip offers the perfect balance of both! Enjoy beautiful views and the joys of being in the ocean while learning all about the local landscapes and wildlife.

"My 7 year old is now passionate about snorkelling and is keen to learn more about marine life"

Pauline, Tripadvisor, 2022

"This trip was amazing from start to finish! My ASD son has a special interest in sea creatures and the guide was happy to answer any questions. He was kind and patient with all the children and adults!"

Odyssey, Tripadvisor, 2024

4 Understand the sea

The digital age has brought a lot of information to our children about the sea - in our experience, very often about the dangers it holds. Our experienced team will help you and your children learn how to complete a risk assessment confidently and accurately, while helping everyone overcome the initial fears around ocean creatures that we see everyday.

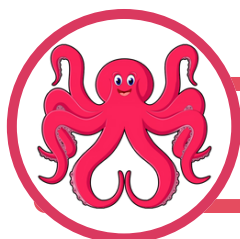

"Our little one went from being nervous to even enter the sea to swimming around amongst hundreds of fish!"

Hayley, Tripadvisor, 2023

5 Enjoy a sustainable experience

Our boat trips are lead by a confident local team who know the waters and are passionate about protecting them. With Meet the Sea, you can trust that your experience is not going to cause any harm or disruption to local wildlife - in fact, we leave the waters cleaner than we find them, collecting any litter or debris as we go.
